

Model 3255A Accelerometer

PC Board Mountable Accelerometer
Amplified Output
Temperature Compensated
High Over-Range Protection

The **Model 3255A** is a signal conditioned board mountable MEMS accelerometer available in $\pm 25g$ to $\pm 500g$ ranges. The package can be mounted in one of two orientations, allowing the measurement axis to be either parallel or perpendicular to the mounting surface without the use of costly brackets. The accelerometer incorporates integral temperature compensation and offers a flat frequency response from DC to 1500Hz.
